Selected decisions of the Commissioner on claims under the National Insurance, National Insurance (Industrial Injuries) and Family Allowances Acts

Decisions of the National Insurance Commissioners under the National Insurance and the National Insurance (Industrial Injuries) Acts are published in the following five series:

- Series "G" Decisions on Claims for Maternity Benefit, Widow's Benefit, Guardian's Allowance and Death Grant.
Series "P" Decisions on Claims for Retirement Pensions.
Series "S" Decisions on Claims for Sickness Benefit.
Series "U" Decisions on Claims for Unemployment Benefit.

(This series supersedes the U.I. Code 8B series of pamphlets, which contained selected decisions given by the Umpire on claims for benefits under the repealed Unemployment Insurance Acts. Details of the old series may be obtained from any Bookshop of Her Majesty's Stationery Office.)

- Series "I" Decisions on Claims for Benefit under the National Insurance (Industrial Injuries) Acts and on any other questions arising thereunder.

- Series "F" Decisions on Claims for Benefit under the Family Allowances Acts.

Before January 1, 1951, the decisions were published periodically in pamphlets in these series; thus "Pamphlet P/6", which was published in August 1949, contained decisions on claims for Retirement Pensions made between May 29 and July 28, 1949.

Decisions reported on and after January 1, 1951, are published still in the same series but singly under their own decision numbers, the numbering recommencing each year. These decision numbers are prefixed by the letter R and followed by the year: thus "R(P) 2/54" reports the second reported decision on a claim for Retirement Pension made during 1954.

Details of individual pamphlets and reported decisions can be obtained and copies purchased through the addresses on page ii of the cover.

THE NEW POSTAL CHARGES IN THE HMSO CATALOGUE SERVICE

From 29th September 1975 the Post Office has introduced new rates of postal charges based upon metric scales of weights in grams and kilograms. At the same time new methods of enabling HMSO customers to calculate the amount of postage chargeable on their orders are being introduced in HMSO lists and catalogues. Because of the frequency in changes of postal rates, the prices inclusive of postage at second class inland rates hitherto quoted in these catalogues become very rapidly outdated. In future, therefore, catalogue entries will omit prices inclusive of postage, quoting published prices only plus the weight of each item in grams or kilograms. Schedules of current postal rates will be included in each catalogue enabling customers to calculate, by reference to those weights, the amount of postage chargeable on any order using either of the commonly used methods of despatch. These schedules will of course be updated on each subsequent change in postal rates.

450g	26p	4kg	£1.35
500g	28½p	5kg	£1.65

The weights shown in the catalogue can also be used to calculate postage or carriage charges by means other than the above.

All Annual Catalogues, Monthly Catalogues and Sectional Lists published or in preparation prior to the announcement of the new rates will contain out-of-date information as to prices inclusive of postage at second class inland rates. The following conversion table will, however, enable customers using the most recent of these catalogues to convert the second class inland postal rates given (for single copies only) to current rates:
